Vice President of the United Arab Emirates
Prime Minister, Ruler of Dubai
H.H Sheikh Hamdan Bin Rashid Al Maktoum
Deputy Ruler of Dubai, Minister of Finance
H.H Sheikh Hamdan Bin Mohammed Al Maktoum
Crown Prince of Dubai
Dear Colleagues,

It is with great pleasure to invite you to join the 2nd International Trauma Congress on 15th – 17th of February 2018 at Le Meridien Hotel Dubai, United Arab Emirates.

Covering the most up-to-date scientific and technical aspects, our exciting program of presentations, instructional lectures, case discussions and interactive sessions bring together an international congregation from the Middle East and beyond.

The 1st International Trauma Congress 2017, was also held in Dubai last 20th -22nd of February 2017. ITC was concluded to pursue its vision to organize the International Trauma Congress to be held annually. With its total of 37 Speakers who is renowned globally, from which 17 speakers from the region including Egypt, Iran, Iraq, Jordan, Lebanon and United Arab Emirates and 20 International Speakers from Belgium, Canada, Columbia, France, Germany, Netherland, Switzerland UK and USA.

They have discussed and shared their experiences regarding the most advance techniques in Trauma Surgery, recent scientific and technical aspects and modern evidence - based medicine.

The Congress came up with more than 90 instructional lectures and presentations, which was beneficial to over 600 delegates, from Physician with different specialization, nurses and other healthcare professionals as well as students. The participants were from 19 Different Countries which includes Canada, India, Iran, Iraq, Jordan, Kuwait, Macedonia, Pakistan, Afghanistan, Qatar, Romania, Saudi Arabia, Slovenia, Sudan, Turkey, United States, UAE and more.

Providing a truly global perspective, we have collaborated with 6 international associations namely, AO Trauma Middle East, Asia Pacific Orthopaedic Association (Asia-Pacific Trauma Society), Egyptian Orthopaedic Association, Emirates Orthopaedic Society and German Society for Orthopaedic and Trauma(DGOU).

The 1st International Trauma Congress was accredited by the Dubai Health Authority with 22 CME Hours and 18 CME Hours accredited by the Ministry of Health for the 3 days hands on cadaver workshop, which was held in Sharjah Surgical Institute, University of Sharjah, UAE. Kindly visit the congress official website www.itcdubai.net to know more about last year’s meeting.

The congress promises to provide a global perspective to support a culture of excellence and best practice care in trauma management. For surgeons, researchers, nurses, students and other trauma professionals this is an ideal opportunity to interact with your peers, learn and benefit with the expertise of our distinguished regional and international speakers, as well as getting involved in outstanding projects and interesting cases.

Three days hands on cadaver workshop will also be available during the 2nd International Trauma Congress.

Mark your calendar now and join us in vibrant Dubai on 15th -17th of February 2018.

International Speakers

Adel Tavakkolizadeh – United Kingdom

Mr Adel Tavakkolizadeh completed his basic surgical training in the London followed by some time doing plastic surgery. He then worked at the Royal National Orthopaedic Hospital in the Peripheral Nerve Injury Unit.

His Orthopaedic registrar training was at Guy's and St Thomas' Hospital. He has completed two subspecialty fellowships including a Sports Medicine and Upper Limb Surgery fellowship in Australia followed by a year of Upper Limb Surgery fellowship at King’s College Hospital. He took up the post of consultant orthopaedic and upper limb surgeon at King’s College Hospital in 2008.

He provides a comprehensive Upper Limb Service including minimally invasive and arthroscopic shoulder, elbow and wrist surgery as well as treatment for all hand pathologies. Kings College Hospital is a level I trauma centre and Mr Tavakkolizadeh undertakes the management and reconstruction of many of the complex upper limb fracture cases.

He is actively involved in local and national research projects and teaching. He has numerous peer reviewed publications and is involved in the regional postgraduate training. He is an organiser and faculty member in several national Trauma and shoulder educational and skills courses and participates regularly in GP and physio teaching programmes. He is a AO faculty for the UK fracture management courses as well as the wrist and hand courses.

Andreas B. Imhoff - Switzerland

Dr. med. Andreas B. Imhoff is a specialist in orthopaedics and trauma surgery, special orthopaedic surgery and sports medicine. He is head of the Department of Sports Orthopaedics at the Technical University of Munich (TUM), Klinikum Rechts der Isar. His specialties include the diagnosis and treatment of diseases and injuries of the shoulder, knee, elbow and ankle, mainly with arthroscopic procedures (joint mirroring). Closely linked to this is his scientific work in the field of cartilage cell and tendon transplantation. Professor Imhoff is a board member of the German Society for Orthopaedics and Orthopaedic Surgery (DGOOC), honorary member of the German-speaking Association for Arthroscopy (AGA, Congress President 1999, President 2000 to 2004, Board member 1999 to 2013) as well as honorary member and corresponding member of several orthopaedic-surgical societies in Europe USA and South America. He has been awarded various research grants in England, Canada, USA and scientific prizes. His publications include numerous specialist contributions in national and international journals and a series of textbooks.

The research of Professor Imhoff (b. 1953) focuses on the cartilage and tissue engineering of tendons and the meniscus and on the biomechanics of the shoulder and knee joint. He also conducts research into new minimally invasive techniques for arthroscopic operations on athletes.

Professor Imhoff completed his medical degree at the University of Basel where he also received his PhD in 1980. Positions as a doctor and scientist led him to the Universities of Basel (surgery, trauma surgery, orthopaedics), Zurich (orthopaedics, neurology) and Pittsburgh/USA (sports orthopaedics). In 1996 he was appointed as successor to Professor W. Bernett at TUM.
Chlodwig Kirchhoff – Germany

Chlodwig Maria Emanuel Johannes born in Munich Germany.
Studied Human Medicine from Ludwig-Maximilians and Technische University Munich
Started working at department of Trauma surgery, Ludwig-Maximilians Universität München, Campus
Worked as Orthopaedic trauma surgeon, Department of Traumatology Klinikum rechts der Isar, Technische Universität Munich, (Head of department Prof. Dr. med. P. Biberthaler).
Working as Professor, Technische Universität München
06/2014 - Registrar, Department of Traumatology, Klinikum rechts der Isar, Technische Universität Munich, (Head of department: Prof. Dr. med. P. Biberthaler)
06/2015 - Section Chief - Shoulder and Elbow Surgery, Department of Traumatology, Klinikum rechts der Isar, Technische Universität Munich, (Head of department: Prof. Dr. med. P. Biberthaler)
12/2015 - Execuve Registrar, Department of Traumatology, Klinikum rechts der Isar, Technische Universität Munich, (Head of department: Prof. Dr. med. P. Biberthaler)
10/2017 - Professor, Technische Universität München

Christian Garreau De Loubresse - France

Prof. Christian Garreau de Loubresse is an Orthopaedic Spine surgeon in Public University Hospital in Paris, France. He is a co-director of Spine Surgery Department at Georges Pompidou European Hospital. Prof. Garreau de Loubresse was trained in Paris, France where he gained his Medical Degree and his Board Certification in Orthopaedic Surgery.
His orthopaedic training was right away strongly oriented towards spinal surgery. During these years, he acquired extensive experience and skills in the use of spinal fixation in the main institutions of spine surgery in Paris.
He was named Professor of Universities in 2001. His activity is shared between direct patient care, clinical research and student education at Paris Descartes University. His clinical field is exclusively Spinal Surgery including spinal deformities, spinal trauma and various spinal diseases.
Prof. Garreau de Loubresse's department became one of the most experienced centres of France. This department is very famous for management of all spinous pathologies and the most advanced techniques in spine surgery.
He organizes and supervised research projects in the field of Scoliosis, Spinal Trauma, Osteoporotic and Pathological Fractures and treatment by Minimally Invasive Spinal surgery.
Christop Josten - Germany

Josten has been the director of the Department of Trauma and Reconstructive Surgery at the Center for Surgery of the University of Leipzig since 1997.

He is assisted in his work by the DGU Board, which for 2012 is constituted as follows:
1. Vice President: Prof. Dr. med. med. Tim Pohlemann, Director and Chairholder of the Department of Trauma, Hand and Reconstructive Surgery at the University Hospital of the Saarland
2. Vice President: Prof. Dr. med. Reinhard Hoffmann, Medical Director of BG Unfallklinik Frankfurt/M.
3. Vice President: Prof. dr. Bertil Bouillon, Director of the Department of Trauma Surgery / Orthopaedics, Clinics of the City of Cologne, Cologne-Merheim Hospital
General Secretary: Prof. Dr. med. Hartmut Siebert, c/o DGU Office
Treasurer: Prof. Dr. med. Joachim Windolf, Director of the Department of Trauma and Hand Surgery, University Hospital Düsseldorf
Secretary: Prof. Dr. med. Andreas Seekamp, Director of the Department of Traumatology, University Hospital Schleswig-Holstein Campus Kiel.

Daniel Schrednitzki - Germany

Sana Kliniken Sommerfeld – Orthopedic surgery – Director: Prof. Dr. A. Halder
07 / 2017 – present - Senior Consultant
01 / 2016 – present - Head of knee department
01 / 2015 – present - Consultant Orthopedic surgeon
11/12/2013 - Board Certification Specialist for Orthopedics and trauma surgery
01 / 2011 – 12 / 2013 Residency Orthopedic surgery
Städtisches Klinikum Wolfenbüttel
07 / 2009 – 12 / 2009 Residency at the Dept. of anesthesiology and intensive care, Director: PD Dr. med. Walter Seyde
01 / 2007 – 12 / 2010 Residency at the Dept. of general and visceral surgery, Director: Prof. H. Keck
01 / 2006 – 12 / 2006 Residency at the Department of trauma surgery
Director: Dr. H. P. Salz
Charite – Humboldt - University in Berlin - Completion November 2005
07 / 2011 – 2017 Doctor thesis: Comparison of short time clinical outcome of total knee arthroplasties versus modular bicompartamental arthroplasties (Guidance of Prof. A. Halder)

Eladio Saura Sanchez - Spain

Born in Murcia in 1965. Educated in a Jesuitic School in Alicante. Son of an Orthopaedic Trauma Surgeon, and brother of two engineers, one Psychologist and another Orthopaedic Surgeon. Happily married and father of 6 sons (4 boys and two girls). Actually, only working for our National Health Service and local University.
My preferred hobbies are reading and eating with good friends and family.
Enrique Guerado - Spain

Fellowship (1985-1986): Clinical, Research Fellowship & Locum Lecturer in Orthopaedic at the Nuffield Orthopaedic Centre, University of Oxford (United Kingdom)

Frank Kandziora - Germany

Born 1968 in Germany, Prof. Dr. med. Frank Kandziora graduated and promoted as “Dr. med.” from the J. W. Goethe-University in Frankfurt. After starting his training at the Orthopedic University Hospital in Frankfurt he moved to the Charite University Hospital in Berlin to train first as a general surgeon, specializing in trauma surgery. After also finishing his orthopedic training and his PhD thesis he became associated Professor (“Priv.-Doz.”) at the Humboldt-University and Head of the Charite Spine Group at the Center of Musculoskeletal Surgery, Campus Virchow Clinic (CVK). 2008 he took over the chairmen position at the multidisciplinary Center for Spinal Surgery and Neurotraumatology at the BGU Hospital in Frankfurt. Currently he is teaching at the Goethe-University in Frankfurt. He has published more than 130 original articles and multiple book chapters, received several scientific awards and is board member of many national and international scientific organizations. Currently he is President of EuroSpine, Chairman of the Spine Group of the German Orthopedic and Trauma Society, Board Member of the German Spine Society, member of the AOSpine Knowledge Forum and member of the AOSpine Technical Commission.

Giannoudis PV – United Kingdom

Professor – Chairman (School of Medicine, University of Leeds)
Honorary Consultant, at LGI (2,500 bed teaching hospital, serving a population in the region of 3.5 million)
Section Head Trauma & Orthopaedic Surgery, School of Medicine University of Leeds
Management of multiple injured patients, including pelvis and acetabulum, spinal fractures, open fractures, long bone fractures, fractures of the tibial plateau, distal tibia and hindfoot
Reconstructive surgery (non-unions, malunions, infections, and in general post traumatic complications).
Chair OTA, International Membership Committee (2014 to 2016)
Executive member Trauma Committee EFFORT (2010 – onwards)
Board Trustee British Trauma Society (2010 - onwards)
Secretary ESTROT (European Society of Tissue Regeneration in Trauma & Orthopaedics)
Founder and Chairman Day One Trauma Charity
Over 600 publications of manuscripts in peer review journals
Over 80 chapters in medical textbooks
Jonathan Copmson - UK

I have been a consultant Orthopaedic Surgeon at Kings College Hospital in London for 21 years. It is a Teaching hospital and Major Trauma Centre.
I am the senior Orthopaedic hand surgeon with a special interest in post trauma reconstruction of elbow and wrist injuries, arthroscopic surgery, fracture dislocations, rheumatoid arthritis and neurological conditions in the upper limb.
I am a council member of the British Society for Surgery of the Hand and well as in the past being the program director of the SE Thames Orthopaedic Training Program.
I am engaged in active research into upper limb surgery and lecture widely both locally and internationally.

Martin Kloub – Czech Republic

X/1995 – now - Vice-head, Hospital České Budejovice, Department of Traumatology
III/1992 – IX/1995 Anaesthesiologist, Hospital Cesky Krumlov, Department of Anaesthesiology

TEACHING EXPERIENCE
Since 2004 AO Education – Faculty Member
Since 2008 Institute for postgraduate education, Praha- lecturer
Since 2007 South Bohemian University – Faculty of Social and Health sciences

EDUCATION:
2006 - 2014 Charles University, Praha postgraduate study – experimental surgery
2005 Institute for postgraduate education, Praha - attestation of traumatology

AOTrauma
2015-2016 Chairman AOTrauma Czech
2010-2017 Chairman AO Master Courses Rotterdamm, Prague, Brno
2016, 2017 Chairman AOTrauma CC Upper Extremity Master Course Davos

Michael Wich – Germany

Prof. Michael Wich has completed his medical training at the University of Frankfurt in Germany 1984. After his residency in various German clinics he worked since 1994 as a consultant in the field of trauma and orthopedic surgery.
In 2001 he became the clinical director of one of the biggest trauma centers in Germany at the ”Unfallkrankenhaus Berlin“.
His expertise covers especially pelvic and acetabular reconstruction after injuries.
He holds multiple patents in the field of trauma implant developments.
He looks at a long history of medical lectures throughout the world and was invited guest speaker within the last 2 years in the US, China, South Korea, Japan and Saudi Arabia
Michael Joseph Segers - Netherlands

Subspecialties and focus areas
Trauma surgery, special interest in sports injuries and fracture treatment of pelvis and spine

Work experience
2004 - present: staff member trauma surgery at St. Antonius Hospital
2001 - 2004: consultant surgeon at AFC Ajax
1998 - 2004: staff member trauma surgery at the VUmc Amsterdam
1998 - 2003: trauma surgeon Helicopter Traumateam Lifeline 1
1998: AO fellow at Kreisklinikum München

Education
Training to surgeon: UMC Utrecht, Kreisklinikum München, VUmc Amsterdam, Diakonessenhuis Utrecht, completed: 1998
Education to physician: Leiden University, completed: 1988

Om Lahoti – United Kingdom

Om Lahoti is a consultant orthopaedic surgeon at King’s College Hospital, London, UK. After completion of orthopaedic residency, he received fellowship training in Limb Reconstruction with Prof. Saleh, at the Children’s Hospital, Sheffield, UK and Ilizarov Institute in Kurgan. King’s College Hospital is one of the Level 1 Trauma Centres in London and he is part of the limb reconstruction team. He has specialist interest in adult and paediatric lower limb reconstruction for trauma and congenital conditions. He has published papers on various topics including trauma and children’s orthopaedics. He runs circular frame courses in London and contributes to similar courses in UK. He is an examiner for Royal College of Surgeons Intercollegiate Orthopaedic Board Examinations since 2011. He is an active member of British Limb Reconstruction Society and currently serving as secretary since 2016. He is also a member of British Orthopaedic Foot and Ankle Society (BOFAS) and British Society for Children’s Orthopaedic Surgery.

Sankara Kumar - Malaysia

Dr C.S Kumar started his career in in his late 90’s as a Medical Officer at Hospital Sultanah Aminah, Johor Bahru. Currently Dr C.S Kumar is the Head of Orthopaedic Trauma Unit at the department of Orthopaedic in UMMC. He is currently a Senior Lecturer at UM, A Consultant Orthopaedic Surgeon & Traumatology in UMMC and UMSC. Dr C.S Kumar is also an instructor for Advance Trauma Life Support Instructor.

Dr C.S Kumar is also actively involved in various course / Invited speakers such as:
- ORTHOPAEDIC TRAUMA COURSE IN UMMC AND PENANG HOSPITAL
- CURRENT CONCEPTS TRAUMA COURSE
- UPPER LIMB CADAVERIC COURSE
- OPERATIVE SKILLS ASSESSMENT FOR THE MASTERS CANDIDATES
- MBBS EXAMINER FOR UNIVERSITY MALAYA MEDICAL PROGRAMME
- INVITED SPEAKER FOR AO TRAUMA COURSES

His special interest is Pelvic trauma and hip fractures. Presently running the traumatology unit in University Malaya Medical Centre with vast experience in managing complex orthopaedic trauma involving the shoulder, elbow, hip, knee and ankle. He wishes to offer his services in General Trauma, Arthroplasty, Pelvic Trauma, Paediatric Trauma and Hand Surgery.
Ali Maqdes - Kuwait

Bachelor of medicine & surgery Kuwait University, Faculty of Medicine.
Residency and fellowship in the French Orthopaedic Board in Paris – France

**Trainee Year**
Apr 21 – Aug 20, 2006 General Surgery, Al Amiri Hospital - Kuwait
Aug 21 – Oct 22, 2006 Obstetrics and Gynaecology, Sabah Maternity Hospital, Kuwait
Nov 2006 – Mar 2008 Orthopaedic Surgery - Al Razi Orthopaedic Hospital, Kuwait

**Residency**
May 2011 – Oct 2011 Resident in the service of Prof. Glorion at the Necker – Enfants malade hospital
Nov 2011 – April 2012, Resident in the service of Dr Beaufils at Andre Mignot Hospital – Versailles
May 2012 – Oct 2012 Resident in the service of Prof. Kempf at CCOT Hospital - Strasbourg
Nov 2012 – April 2012, Resident in the service of Prof. Hardy at the Ambroise Pare Hospital – Boulogne Billiancourt
May 2012 – Oct 2013, Resident in the service of Dr Valenti at Clinique Jouvenet – Paris

**Fellowship**
Nov 2013 – Nov 2014 Fellow with Dr Beaufils at Andre Mignot Hospital - Versailles

Current position: Orthopaedic shoulder surgeon at Al Razi Hospital – Kuwait Sport units

Amr El Shawarby – United Arab Emirates

Professor of Neurosurgery
Medical Director of Neuroscience in SEHA Abu Dhabi
Chairman of Neurosurgery in Tawam Hospital
President of Pan Neuro Society
Nominated as the second Vice President for the World Federation of the Neurosurgical Society (WFNS)

Assem Tantawy – United Arab Emirates

Senior consultant orthopedic surgeon
Head of Orthopedic Surgery Department,
Head of Joint Reconstruction Unit.
AL Qassimi Hospital, Ministry of Health, UAE
Ayman Ebied - Egypt

Professor and consultant orthopaedic surgeon at Menoufia University Hospitals in Egypt. My primary interest is complex primary and revision hip and knee arthroplasty.

I did my primary qualification and basic surgical training at Menoufia University. Between 1998 and 2006 I was a specialist registrar at the Merseyside (North West Rotation, UK) training program and a postgraduate student at Liverpool University.

Founding member and general secretary of the Egyptian Association of Arthroscopy and examiner at the royal college of surgeons of England since January 2014.

Feras Ya’ish - United Arab Emirates

Consultant Trauma & Orthopaedics
Chief of Orthopaedic Service - Clinical lead for Hip, Pelvic and Acetabular service for SEHA Abu Dhabi - Al Mafaq Hospital Abu Dhabi, UAE
This is a Tertiary Elective Orthopaedic Centre and Major Trauma Centre.
Special Interest:
  · Lower limb arthroplasty Hip & Knee, revision arthroplasty.
  · Soft tissue Knee reconstruction
  · Orthopaedic Trauma

Hayder Al Saadi - United Arab Emirates

M.B.Ch.B, M.R.C.S, High Specialization (JU), F.J.M.C (Ortho & Trauma), F.C.A.B.M.S (Ortho & Trauma), AO Fellow (UK), ARI Fellow (Switzerland), OTC Fellow(Spain)

Ortho & Trauma Surgeon – Rashid Hospital & Trauma Centre – Dubai – UAE
Clinical Lecture-Dubai Medical College
Dubai Residency program in Orthopaedics and Trauma Faculty
Community Development Officer-AOTRAUMA-UAE Chapter
AOTRAUMA-ME-CDC member
AOTRAUMA Regional Faculty
**Hazem Abdul Azeem - Egypt**

Main interest is in Hip Surgery, Arthroplasty, Pelvic and Acetabular Fracture Management, besides the practice of General Orthopaedics and Traumatology

- Professor of orthopaedics and trauma surgery, Kasr ElAini Faculty of Medicine, Cairo University.
- Chairman and Faculty Member in the International AO/ASIF Course and Workshop for Principles in Operative Fractures Management, Davos, Switzerland (2011).
- Member, Standing Committee for Promotion of Professors, Supreme Council of Universities (2005 - till now, renewed twice).
- Vice Dean of the Faculty of Medicine, Kasr El Aini Medical School, Cairo University (2000-2006, renewed twice).

**Hesham Al Khateeb - Bahrain**

I am a Trauma and Orthopaedic Consultant Surgeon practicing at King Hamad University Hospital in Bahrain

I completed my training in London, UK from 2003-2013 on the Royal National Orthopaedic Hospital, Stanmore rotation and completed an AO Trauma fellowship at Harborview Hospital in Seattle and an Adult Reconstruction Fellowship at the University of Western in London Ontario.

I specialise in complex lower limb trauma, sports and exercise medicine and revision lower limb arthroplasty.

**Dr. Hosam Elshafie - Egypt**

**CURRENT POST IN Egypt**

- Assistant professor Orthopaedic Surgery, Faculty of medicine, Alexandria, from 1/3/98.
- Professor of Orthopaedic Surgery and traumatology, Faculty of Medicine, Alexandria University Hospitals.
- Professor Orthopaedics since 1/3/2003 till now

**UNITED KINGDOM POSTS**

- Orthopaedic Registrar from 1/1/91 to 31/12/91, at Princess Alexandra Hospital, Harlow, Essex, Cm 20.
- Orthopaedic registrar from 1/1/92 till 29/2/92, at Chase Farm Hospital, London. This training was sponsored by the Royal College of Surgeon of England ODTs.
- Staff Grade Orthopaedic Surgeon Broomfield Hospital, Chelmsford Essex from 1th of Jan.1994 for 6 months, England.
- Locum consultant orthopaedic surgeon at Derriford hospital, Plymouth, from 1/9/95 for two months.
Imad Hashim Ahmad - United Arab Emirates

Imad Hashim Ahmad received his MBChB from Mosul Medical College in Iraq in 1977, and passed his Primary F.R.C.S. Examination, Final F.R.C.S. Examination, and F.R.C.S. (Neurosurgery) at the Royal College of Surgeons of Edinburgh.

He is currently a Consultant Neurosurgeon at the Medical International Specialist Centre and is the Visiting Surgeon of the Mediclinic City Hospital and the Canadian Specialist Hospital and Assistant Professor of Neurosurgery at Dubai Medical College. He is an Ex-President of the Emirates Neuroscience Society and in April 2012, he was elected to the position of Education Neuro for AO Spine Middle East. He is currently being an education advisor for the AOSpine Middle East. He is a reviewing editor for the Global Spine Journal.

Subspecialty: Brain tumours, Cerebrovascular diseases, paediatric Neurosurgery, cervical & lumbar spinal degenerative diseases.

Dr. Kamal Deep UK

Mr Kamal Deep is leading world authority on computer assisted joint replacement surgery. Pioneer of the British Society for Computer Aided Orthopaedic Surgery (CAOS UK), he serves on its Executive board and is Secretary General for International Society for Computer assisted surgery CAOS International. He has given faculty presentations on the subject across the world and performed live surgeries in conferences in UK and abroad. Amongst his areas of interest are primary and revision hip and knee arthroplasty with computer navigation, arthroscopic surgery of the knee and ligamentous surgery of the knee.

Areas of Interest

Computer assisted navigation surgery and Knee replacement surgery
Hip replacement surgery and Primary and revision joint replacements
Arthroscopy and ACL ligamentous surgery for knee
Minimally invasive surgery (MIS) and Person specific joint replacements
Robotic surgery and Outcomes in joint replacements
Biomechanics of joints, replacements therapies, function and biomechanics of hip and knee joints, patient oriented outcomes and satisfaction in joint replacement surgery

Narayan Ramachandran – Oman

Trauma at Armed Forces Hospital - Muscat Governorate, Oman

Armed Forces Hospital

Indian born Omani surgeon, Dr Narayan Ramachandran, an orthopaedic trauma surgeon from the Armed Forces Hospital in Muscat

Dr Ramachandran's association with AO Trauma began in 2005 when he was invited as a junior member of the faculty. The orthopaedic surgeon began teaching at Davos in 2007 and has since then been an integral part of the global organisation in the Middle East.
Mahmoud M Odat – Jordan

Overall Chair, of the Regional AOTrauma Principle Courses since 2010
Chair, COT ACS-Jordan Chapter and Chair, ATLS Jordan Chapter
Member, Global AOT Education Commission
Member, Global ORP (Operative Room Personnel) ETF (Educational Task Force)
Member, RETT (Regional Education Training Team)

Previous Posts
Chief of the Orthopaedic Department RMS
President of the Jordanian Orthopaedic Association
President of the Pan Arab Orthopaedic Association
Chair, AOTrauma Basic Principles Davos Courses 2012-2013
Director of the Academy of the RMS
Chair, Jordanian Orthopaedic Board (Jordan Medical Council)
Member, Board of Directors of JAMCO (Jordan Advanced Machining Company) KDDB

Memberships
AAOS International Affiliate Member
ACS International Member
PIA Ponseti International Association (Iowa University)
AOFoundation
AOTrauma International Faculty Gold Member (Switzerland)
SICOT International Society of Orthopaedic Surgery and Traumatology
EFORT European Federation of National Associations of Orthopaedics and Traumatology
Girdlestone Orthopaedic Association (Oxford University)
Jordanian Orthopaedic Association

Saeed Al Thani

Dr Saeed Al Althani is currently Assistant Professor at the College of Medicine and Health Sciences, United Arab Emirates University, Al-Ain, UAE, and a Consultant of Orthopaedic, Arthroscopy, Sport Medicine and Joint Reconstruction with a conjoint appointment in the Department of Orthopaedic at Tawam and Mediclinic City Hospital.

He received his MBBS from the College of Medicine and Medical Science, at Dammam University (King Faisal University) in Saudi Arabia, in 1993 before an Orthopaedic Residency program at the University of Toronto, Canada. He completed fellowships in Hand, Sport and Arthroscopy in Toronto. Dr. Althani is the President of the Emirates Orthopaedic Society, Chairperson of AOTRAUMA, UAE Chapter, and a member of the Arab Board Orthopaedic Examination Committee.

He specializes in the treatment of arthritis in both old and young, active patients. He lectures nationally and internationally, and through his basic science and clinical research has mastered several innovative techniques for the treatment of shoulder, elbow and knee conditions.

Shahid Noor - Pakistan

FRCS (Tr&Orth), FRCS(Eng.), FRCS(Edin.)
President of the Pakistan Arthroplasty Society.
Director of the Pakistan National Joint Registry.
Founder Principal in Liaquat National Medical College
Chairman Scientific Committee of the 30th PakOrthocon.

- Rotations: Leave relief, Trauma Unit, Vascular surgery, General surgery, Intensive Care Unit

Resident medical officer - Royal Perth Hospital (gen registration): Rotations: Cardiothoracic surgery, Spinal surgery, Emergency medicine, General surgery, Leave relief (orthopaedic and plastic surgery)

- Internship - Royal Perth Hospital (provisional registration):
- Rotations: Emergency medicine, general surgery, general medicine, psychiatry, orthopaedic surgery

Fawzy Hamdy El Mobayed – United Arab Emirates

- M.B.B.Ch. December 1976Ain-Shams University Cairo.
- CJ Arab board for Orthopaedic surgery April 2008 CJ AO Fellowship July, August, 1985.1nBristol Royal Infirmery with Mr.I.J.Leslie (UK)
- CJ AO Fellowship Sep., Oct., Nov. 1989 In Basel Switzerland
Iftikhar Wani – India

Lecturer Hospital for Bone and Joint Surgery Barzulla Srinagar
M.S. Ortho Govt Medical College, Jammu, J & k India
M.B.B.S Govt Medical College, SRINAGER, J & k India
Fellowship in Arthroscopy and Arthroplastyby International Society for Knowledge for Surgeons on Arthroscopy and Arthroplasty (ISKSAA) at Flinders Medical Centre and Repatriation General Hospital -International Musculoskeletal Research Institute(IMRI) in May 2014
Certificates of Merit/Academic excellence
Certificate of Merit Awarded for securing first position in pharmacology in 2nd professional examination at Government Medical College Srinagar India.
Certificate of Appreciation by INDIAN ACADEMY OF PAEDIATRICS for 17th IAP PEDIATRIC QUIZ
Certificate of Merit Awarded for securing 3rd position in Gynaecology and Obstetrics in final professional examination at Government Medical College Srinagar India.

Pasupathy P - Indian

PRESENT POSITION
Senior Resident, Department of Orthopaedics, Jawaharlal institute of post graduate medical education and research (JIPMER), Dhanvantari nagar, Pondicherry, India
SPECIAL INTERESTS ARTHROSCOPY & SPORTS MEDICINE, ARTHROPLASTY, ORTHOPAEDIC ONCOLOGY, SPINE, FOOT AND ANKLE ORTHOPEDICS, NEGLECTED TRAUMA
RESEARCH PAPERS PRESENTED

Zbiggy J. Brodzinsky – United States of America

- Education: Silesian University School of Medicine, Poland/EU & The George Washington and Georgetown Universities, Washington, D.C., USA.
- Specialty: Orthopaedic Surgery Spine. DHCC & DHA Licenses
- PROFESSIONAL EXPERIENCE
- Adult Spine Elective & Trauma (FDA/USA & CE/EU approved procedures); o Minimally/MISS & Less Invasive/LISS Spinal Surgery (“key hole surgery”); o Conventional Spinal Surgery; o Interventional Pain Management & Neuromodulation; o Biological Treatment (pre- & stem cell therapy/MSC, PRP, cytokines).
- CLINICAL EXPERTISE & SERVICES OFFERED
- (DEGENERATIVE, DEFORMITY, ONCOLOGY & TRAUMA)
- Minimally invasive spine surgery/MISS “key hole surgery” for herniated discs, degenerative disc disease ( PDCT-plasma light; PLDD-laser; DiscoGel; Ozone therapy; intradiskal mechanical decompression and disk augmentation); endoscopic assisted microdiskectomy: transforminal & interlaminar; Pain management procedures: L-ESI: epidural/caudal block, SNRB-selective nerve root block also DRG PRF-standard and pulsed radiofrequency, SI joint block, facet block; neuromodulation; flexible lumbar endoscopy AccuroScopy;
- Reconstructive disc surgery: dynamic stabilization, semi-rigid fixation and disc replacement; through The newest “state of art” MISS procedures available only in the USA and EU.MISS fusion: AxialIF/ALIF, PerX360-MISS TLIF, TLIF/PLIF; DLIF/OLIF; Surgery for spinal stenosis: decompression (direct and indirect), interspinous implants, (LISS less invasive approach) also percutaneous/endoscopic assisted MISS; Fusion surgery (posterior, anterior, inferior-paracoccygeal approach, far lateral and 360 degrees) for degenerative cervical, thoracic and lumbar disc disease and spondylolisthesis/spondyloysis also MISS; Spondyloysis repair; Treatment of failed back surgery syndrome/FBSS; Deformity treatment: Scoliosis correction, Kyphosis (Scheuermann) correction with neurorouting during surgery & neuronavigation
Caring for the world, one person at a time inspires and unites the people of Johnson & Johnson.

We embrace innovation-bringing ideas, products and services to life to advance the health and well-being of people around the world.

We believe in collaboration, and that has led to breakthrough after breakthrough, from medical miracles that have changed lives, to the simple consumer products that make every day a little better.

Our over 125,000 employees in 60 countries are united in a common mission: To help people everywhere live longer, healthier, happier lives.

The DePuy Synthes Companies are part of the Johnson & Johnson Family of Companies.

We offer the world’s most comprehensive portfolio of orthopedics and neuro products and services for joint reconstruction, trauma, spine, sports medicine, neuro, cranio-maxillofacial, power tools and biomaterials.
ENHANCE YOUR FIRST LINE OF DEFENSE

The Expert Nail family offers advanced protection with the Expert Tibial Nail with PROtect Coating.

The Expert Tibial Nail with PROtect Coating releases high concentrations of antibiotics into the implants surroundings to protect your patients from bacterial colonization of the implant.1 The innovative PROtect Coating allows to be better prepared for even your most high-risk patients.

Lilly is a global healthcare leader that unites caring with discovery to make life better for people around the world. We were founded more than a century ago by a man committed to creating high quality medicines that meet real needs, and today we remain true to that mission in all our work. Across the globe, Lilly employees work to discover and bring life-changing medicines to those who need them, improve the understanding and management of disease, and give back to communities through philanthropy and volunteerism.
WHEN PATIENT IS IN SURGERY WITH AN OSTEOPOROTIC FRACTURE
HELP TREAT THE UNDERLYING CONDITION

CONSIDER TERIPARATIDE, THE ONLY FDA-APPROVED BONE ANABOLIC AGENT FOR OSTEOPOROSIS TREATMENT

BEFORE FORTÉO®

SAME PATIENT 21 MONTH AFTER FORTÉO®

TERIPARATIDE is indicated for:
1- Treatment of postmenopausal women with osteoporosis at high risk for fracture.
2- Increase of bone mass in men with primary or hypogonadal osteoporosis at high risk for fracture
3- Treatment of men and women with osteoporosis associated with sustained systemic glucocorticoid therapy at high risk for fracture.

Solution for injection in pre-filled pen, Teriparatide
1. NAME OF THE MEDICINAL PRODUCT FORTEO 20 micrograms/0 micrograms solution for injection in pre-filled pen, 2. QUALITATIVE AND QUANTITATIVE COMPOSITION Each dose contains 20 micrograms of teriparatide. One pre-filled pen of 2.6 ml contains 600 micrograms of teriparatide (corresponding to 250 micrograms per ml). Teriparatide, rPTH(1-34), produced in E. coli, using recombinant DNA technology, is identical to the 34 N-terminal amino acid sequence of endogenous human parathyroid hormone, 3. PHARMACEUTICAL FORM Solution for injection in a pre-filled pen. Colourless, clear solution. 4. CLINICAL PARTICULARS 4.1 Therapeutic indications. Treatment of osteoporosis in postmenopausal women and in men at increased risk of fracture. In postmenopausal women, a significant reduction in the incidence of vertebral and non-vertebral fractures but not hip fractures has been demonstrated. Treatment of osteoporosis associated with sustained systemic glucocorticoid therapy in women and men at increased risk of fracture. 4.2 Pharmacology and method of administration. The recommended dose of FORTEO is 20 micrograms administered once daily by subcutaneous injection in the thigh or abdomen. Patients must be trained to use the proper injection techniques. A User Manual is also available to instruct patients on the correct use of the pen. The maximum total duration of treatment with FORTEO should be 24 months. The 24-month course of FORTEO should not be repeated over a patient's lifetime. Patients should receive supplemental Calcium and vitamin D supplements if dietary intake is inadequate. Following cessation of FORTEO therapy, patients may be continued on other osteoporosis therapies. FORTEO should not be used in patients with severe renal impairment. No data are available in patients with impaired hepatic function. 4.3 Contraindications. Hypersensitivity to the active substance or to any of the excipients. Pregnancy and lactation. 4.4 Pre-existing hypercalcaemia. 4.5 Severe renal impairment. 4.6 Metabolic bone diseases other than primary osteoporosis (including hyperparathyroidism and Paget's disease of the bone). 4.7 Unexplained elevations of alkaline phosphatase. 4.8 Prior external beam or implant radiation therapy to the skeleton. 4.9 Patients with skeletal malignancies or bone metastases should be excluded from treatment with teriparatide. 4.10 Special warnings and precautions for use. 4.10.1 In normocalcemic patients, slight and transient elevations of serum calcium concentrations have been observed following teriparatide injection. Serum calcium concentrations reach a maximum between 4 and 6 hours and return to baseline by 14 to 26 hours after each dose of teriparatide. Routine calcium monitoring during therapy is not required. Therefore if any blood samples are taken from a patient, this should be done at least 14 hours after the most recent FORTEO injection. FORTEO may cause small increases in serum calcium concentration, but the incidence of hypercalcaemia did not differ from that in the placebo-controlled patients in clinical trials. FORTEO has not been studied in patients with active urolithiasis. FORTEO should be used with caution in patients with active or recent urolithiasis because of the potential to exacerbate this condition. In short-term clinical studies with FORTEO, isolated episodes of transient orthostatic hypotension were observed. Typically, an event began within 4 hours of dosing and spontaneously resolved within a few minutes to a few hours. When transient orthostatic hypotension occurred, it happened within the first several doses, was relieved by placing patients in a recumbent position, and did not preclude continued treatment. 4.11 Undesirable effects. The most commonly reported adverse reactions in patients treated with FORTEO are nausea, pain in limb, cramps, vertigo, headaches, sciatia, dizziness, palpitations, tinnitus, fatigue, chest pain, depression. 5. PHARMACEUTICAL PARTICULARS. Shelf life 2 years. Chemical, physical and microbiological in-use stability has been demonstrated for 28 days at 2-8°C. Once opened, the product may be stored for a maximum of 28 days at 2°C to 8°C. Other in-use storage times and conditions are the responsibility of the user. Special precautions for storage: Store in a refrigerator (2°C - 8°C) at all times. The pen should be returned to the refrigerator immediately after use. Do not freeze. Do not store the injection device with the needle attached.

Stryker is one of the world's leading medical technology companies and, together with our customers, we are driven to make healthcare better. The Company offers a diverse array of innovative products and services in: Reconstructive / Endoscopy / Integration & Connectivity / Medical / Power Tools / Surgical Equipment / Navigation / Reconstructive / Neurotechnology & Spine. Stryker is active in over 100 countries around the world.
Naghi Medical is a leading provider of medical devices in the United Arab Emirates (UAE). With offices in Abu Dhabi and Dubai, Naghi Medical supplies hospitals, universities and various types of medical facilities across the UAE with the highest quality products and leading technologies. Operating under the umbrella of Gulf Medical Company, with headquarters in the Kingdom of Saudi Arabia and dedicated since 1983 to offering specialized solutions to the medical sector, Naghi Medical is a professional exemplification of building long-term partnerships with suppliers and customers in the UAE’s medical field.
Smith & Nephew supports healthcare professionals in more than 100 countries efforts to improve the lives of their patients.

We do this by taking a pioneering approach to the design of our advanced medical products and services, by securing wider access to our diverse technologies for more customers globally, and by enabling better outcomes for patients and healthcare systems.

We have leadership positions in:

- **Orthopaedics Reconstruction** - joint replacement systems for knees, hips and shoulders
- **Advanced Wound Management** - wound care treatment and prevention products used to treat hard-to-heal wounds
- **Sports Medicine** - minimally invasive surgery of the joint
- **Trauma & Extremities** - products that help repair broken bones

We have around 15,000 employees around the world.
Mantenimento della compressione ed eliminazione dell’effetto Z
Le viti integrate avvitandosi diventano solidali e generano forze di spinta/trazione che mantengono la compressione dopo la rimozione degli strumenti in modo da eliminare l’effetto Z

Stabilità rotazionale intertrocanterica
La forma trapezoidale consente di ottenere un pressfit nella regione metafisaria e posiziona più materiale sulla parte laterale del chiodo in cui le forze di resistenza alla trazione e di tensionamento tendono a essere maggiori

Controllo della rotazione durante la riduzione
Un meccanismo a cremagliera converte la rotazione in compressione lineare attiva, stabilizzando al contempo il frammento mediale

Eliminazione della migrazione mediale
La testa della vite di compressione spinge medialmente contro il chiodo e scarica le forze di tensione dalla parete laterale

Prevenzione delle fratture periprotesiche
La punta distale diapason è meno rigida per ridurre l’aumento delle sollecitazioni e l’incidenza di dolore nella parte anteriore della coscia
Bronze Sponsors

L&R is a leading international supplier of high-quality medical and hygiene products. Founded in 1998. Formed when the two well-established companies Lohmann (1851) and Rauscher (1899) joined forces.

More than 160 years of experience in the development, production, sale and distribution of dressing materials and medical devices focused on 3 core business areas:
- wound care / negative pressure therapy
- bandages and dressings
- set systems and hygiene products

L&R has 44 group companies and participating interests in 22 countries.

L&R collaborate with more than 130 partners in over 80 countries on all continents and more than 1200 suppliers around the world.

Physio & Rehab

It is based in UPTOWN Mirdif Mall. The center is established and run by a group of local physiotherapists who are pioneers in the field and have been involved in development of the physiotherapy profession in the United Arab Emirates. The founders of the center have over 60 years of cumulative experience in the field of rehabilitation spanning from clinical to administrative, and teaching experience. Powered by our knowledge and experience in the field, we promise to deliver evidence-based care that is based on international standards in a friendly and caring environment. We value our clients and promise to exceed their expectations. The center is a member of Sheikh Mohammed Establishment for Young Business Leaders.

OUR VISION - Become a leader physiotherapy & Rehabilitation center in UAE serving Patients with caring touch allowing them to get back their body usability in the best way we can.
