ITC2019
WELCOME

Dr. Bilal El-Yafawi
Conference President

It is with great pleasure to invite you to join the "3rd International Trauma Congress" on the 13th – 15th of February 2019 at Le Meridien Hotel Dubai, United Arab Emirates.

After two very rich and successful versions, ITC is determined to continue covering the most up-to- date scientific and technical aspects, our exciting program of presentations, instructional lectures, case discussions and interactive sessions bring together an international congregation from the Middle East and beyond.

ITC 2019 Scientific agenda will allow participants to get up to 23 CPD points attending conference activities to be conducted by 32 international & regional speakers.

The congress promises to provide a global perspective to support a culture of excellence and best practice care in trauma management. For surgeons, researchers, nurses, students and other trauma professionals this is an ideal opportunity to interact with your peers, learn and benefit with the expertise of our distinguished regional and international speakers, as well as getting involved in outstanding projects and interesting cases.

Two days hands on cadaver workshop will also be available during the "3rd International Trauma Congress".

Mark your calendar now and join us in vibrant Dubai on
13th - 15th of February 2019.

ORGANIZING COMMITTEE

alphabetically arranged

Hayder Al Saadi

M.B.Ch.B, M.R.C.S , FRCS, Ph.D , F.J.M.C, F.C.A.B.M.S (Ortho & Trauma), AO Fellow (UK), ARI Fellow (Switzerland), OTC Fellow (Spain), Orthopedics And Trauma Surgeon In Rashid Hospital And Trauma Center,
UAE

John Abdelnoor

Professor Emeritus Lebanese University
Clinical professor Lebanese American University
Head of Arab Examination Board in Orthopedics and previous vice president of the Lebanese Orthopedic Association.
Clinical Associate and Lecturer: American University,
Beirut, Lebanon

Dr. Malallah Hassan Ali

Senior Consultant,
German Board Traumatology,
Rashid Hospital, UAE

SCIENTIFIC COMMITTEE

alphabetically arranged

Hayder Al Saadi

M.B.Ch.B, M.R.C.S , FRCS, Ph.D , F.J.M.C, F.C.A.B.M.S (Ortho & Trauma), AO Fellow (UK), ARI Fellow (Switzerland), OTC Fellow (Spain), Orthopedics And Trauma Surgeon In Rashid Hospital And Trauma Center,
UAE

John Abdelnoor

Professor Emeritus Lebanese University
Clinical professor Lebanese American University
Head of Arab Examination Board in Orthopedics and previous vice president of the Lebanese Orthopedic Association.
Clinical Associate and Lecturer: American University, Beirut, Lebanon

Mahmoud Odat

Senior Consultant Orthopaedic & Trauma Surgeon Fellow of the American Colleague of Surgeon Member,
Jordanian Orthopedic Board (Jordan Medical Council) Chair,
COT ACS-Jordan Chapter Chair, ATLS Jordan Chapter Member,
RETT (Regional Education Training Team),
Amman, Jordan

Peter Giannoudis

Professor & Chairman Trauma & Orthopaedics,
School Of Medicine, University Of Leeds Leeds,
United Kingdom

3rd INTERNATIONAL
TRAUMA
CONGRESS

Wednesday
13th February, 2019

1 DAY Wednesday

Session 1 Shoulder Cuff Injury and Instability

Moderators: M. Hoffman, M. Van Der List

08:30 - 08:50	**Shoulder dynamics, compenstaion mechanism & compensation problems.**	**M. Van Der List,** *Netherlands*
08:50 - 09:00	**Reversed shoulder replacement, indications & technique.**	**Michael Hoffman,** *Germany*
09:00 - 09:10	**Arthroscopic versus open repair of rotator cuff.**	**M. Van Der List,** *Netherlands*
09:10 - 09:20	**Scapula fracture when to operate.**	**Sofiene Kallel,** *Tunisia*
09:20 - 09:30	**Shoulder arthroscopy, tips and tricks.**	**M. Van Der List,** *Netherlands*
09:30 - 10:00	**Panel expert discussion**	**Michael Hoffman,** *Germany*
10:00 - 11:00	**Coffee Break and Opening Ceremony**	

Session 2 Fractures around the shoulder

Moderators: M. Segers, J. Abdelnoor

11:00 - 11:10	**Current concepts and evidence in scapula fractures.**	**Wassim Aldebeyan,** *KSA*
11:10 - 11:20	**AC joint injury any update?**	**John Abdelnoor,** *Lebanon*
11:20 - 11:30	**Suprascapular nerve entrapment, when to interfere.**	**Wassim Aldebeyan,** *KSA*
11:30 - 11:40	**Bankart fracture dislocations.**	**M. Van Der List,** *Netherlands*
11:40 - 11:50	**Proximal humerus Fracture - when to operate?**	**Michael Hoffman,** *Germany*
11:50 - 12:00	**Complex proximal humeral fractures - salvage versus arthroplasty.**	**Sofiene Kallel,** *Tunisia*
12:00 - 12:10	**The rationale of straight nails versus valgus bended nails in the treatment of proximal humerus fractures.**	**Michiel Segers,** *Netherlands*
12:10 - 12:20	**Biceps tendon injury, any update?**	**M. Van Der List,** *Netherlands*
12:20 - 12:30	**Humeral shaft fracture - Nailing or Plating.**	**Renate Krassnig,** *Austria*
12:30 - 12:40	**Case presentation and expert opinion.**	**Sofiene Kallel,** *Tunisia*
12:40 - 13:10	**Lunch Symposium** Innovative Trauma Management by Arthrex	
13:10 - 14:00	**Lunch**	

3rd INTERNATIONAL TRAUMA CONGRESS

1 DAY Wednesday

Session 3 Knee Injuries

Moderators: M. Pirpiris, J. Antoniou

14:00 - 14:10	Algorithm for the acute management of knee dislocations.	**Suwailim Al Ghanami,** *Oman*
14:10 - 14:20	Tibial plateau complex fractures treatment algorithm.	**Fadi Nassereddine,** *Lebanon*
14:20 - 14:30	Any role to primary TKR in severe trauma.	**John Antoniou,** *Canada*
14:30 - 14:40	Multiple knee ligaments injury, where to start?	**Suwailim Al Ghanami,** *Oman*
14:40 - 14:50	Periprpsthetic knee injuries, any update?	**Michael Hoffman,** *Germany*
14:50 - 15:20	Expert opinion.	**Marinis Pirpiris,** *Australia*
15:20 - 15:30	**Questions & Answers**	
15:30 - 16:00	Coffee Break	

Session 4 Hip Injuries

Moderators: J. Antoniou, P. Roberts

16:00 - 16:10	THR for femoral neck fracture.	**Renate Krassnig,** *Austria*
16:10 - 16:20	Peri-prosthetic proximal femur fracture.	**Marinis Pirpiris,** *Australia*
16:20 - 16:30	Understanding & management of rotational deformity of fem.	**Sultan Al Maskari,** *Oman*
16:30 - 16:40	Common pitfalls in proximal femoral nailing.	**Ahmed Sabeh,** *Iraq*
16:40 - 16:50	Bipolar versus Unipolar Hip hemiarthroplasty.	**Philip Roberts,** *UK*
16:50 - 17:00	Intra-op fractures during THR.	**John Antonio,** *Canada*
17:00 - 17:10	DHS VS SCREWS in femoral neck fracture.	**Mahmoud M.Odat,** *Jordan*
17:10 - 17:20	Bilateral THR, any update?	**John Antonio,** *Canada*
17:20 - 17:30	**Questions & Answers**	

3rd INTERNATIONAL
TRAUMA
CONGRESS

DAY 2

Thursday

14th February, 2019

2 DAY Thursday

Session 5 Pelvis and Acetabulum Fractures

Moderators: P. Roberts, G. Achatz

08:30 - 08:40	Pelvis fractures in the elderly: Which ones to replace or operate?	**Gerhard Achatz,** *Germany*
08:40 - 08:50	Marginal Impaction injuries of acetabulum: An update.	**Philip Roberts,** *UK*
08:50 - 09:00	Acetabular peri prosthetic fracture.	**Firas Ya'ish,** *UAE*
09:00 - 09:10	Sacral fractures: When to intervene and how?	**Philip Roberts,** *UK*
09:10 - 09:20	Sacro-iliac screws, tips and tricks.	**Seamus Morris,** *Ireland*
09:20 - 09:30	Open pelvic fractures: All I need to know.	**Marinis Pirpiris,** *Australia*
09:30 - 09:40	Fragility Pelvis fractures.	**Firas Ya'ish,** *UAE*
09:40 - 09:50	**Questions & Answers**	
09:50 - 10:30	Faculties and companies appreciation	
10:30 - 11:00	Coffee Break	

Session 6 Pelvis Fractures

Moderators: B. Friemert, F. Ya'ish

11:00 : 11:10	The killing pelvic fracture: Characteristics and treatment algorithm.	**Marinis Pirpiris,** *Australia*
11:10 - 11:20	Who needs pelvic embolisation?	**Gerhard Achatz,** *Germany*
11:20 - 11:30	Functional outcome after pelvic fractures: What should we expect.	**Benedikt Friemert,** *Germany*
11:30 - 11:40	Percutaneous fixation of pelvic ring injuries: Current trends.	**Seamus Morris,** *Ireland*
11:40 - 11:50	Bone augmentation in pelvic fractures: Technique and results of treatment.	**Philip Roberts,** *UK*
11:50 - 12:00	Combined pelvis and acetabular fracture.	**Firas Ya'ish,** *UAE*
12:00 - 12:10	Emergency management of pelvis fracture.	**Philip Roberts,** *UK*

3rd INTERNATIONAL TRAUMA CONGRESS

2 DAY Thursday

Session 6 Pelvis Fractures

Moderators: B. Friemert, F. Ya'ish

12:10 - 12:20	**Review of 100 unstable pelvis fracture in Rashid Hospital.**	**Fawzy El-Mobayed,** *UAE*
12:20 - 12:50	**Panel Discussion**	**Marinis Pirpirs,** *Australia*
12:50 - 13:20	**Lunch Symposium** Femoral Neck Screw Fixation by DepuySynthes	
13:20 - 14:30	**Lunch**	

3rd INTERNATIONAL TRAUMA CONGRESS

Session 7 Cervical Spine

Moderators: P. Heini, I. Hashim

14:30 - 14:40	**Cervical foraminal disc, indication for surgery.**	**Seamus Morris,** *Ireland*
14:40 - 14:50	**Acute cervical disc repture, where to interfere.**	**Imad Hashim,** *UAE*
14:50 - 15:00	**Posterior cervical fixation, indication and techniques?**	**Seamus Morris,** *Ireland*
15:00 - 15:10	**Occipto-cervical fixation, tips and tricks.**	**John Abdelnoor,** *Lebanon*
15:10 - 15:20	**Microscopic cervical descectomy, technique and results.**	**Imad Hashim,** *UAE*
15:20 - 15:30	**Case discussion, cervical spine.**	**Paul Heini,** *Switzerland*
15:30 - 15:40	**Questions & Answers**	
15:40 - 16:00	**Coffee Break**	

2 DAY Thursday

Session 8 Lumbar Spine

Moderators: S. Morris, M. Segers

16:00 - 16:10	**Oblique lateral interbody fusion L2-S1.**	**Firas Al-Husban,** *UAE*
16:10 - 16:20	**Navigation and MISS in spine surgery.**	**Imad Hashim,** *UAE*
16:20 - 16:30	**Management of Spinal Cord Injury.**	**Seamus Morris,** *Ireland*
16:30 - 16:40	**Difference between thoracic and lumbar percutaneous screws.**	**Paul Heini,** *Switzerland*
16:40 - 16:50	**MIS Tubualr TLIF.**	**Panagiotis Liantis,** *UK*
16:50 - 17:00	**Balloon assisted endplate reduction in combination with percutaneous posterior fixation in thoracolumar fractures.**	**Michiel Segers,** *Netherlands*
17:00 - 17:10	**Percutanous spino-pelvis fixation.**	**Paul Heini,** *Switzerland*
17:10 - 17:20	**MIS Scoliosis Surgery.**	**Firas Al-Husban,** *UAE*
17:20 - 17:30	**Sagital balance correction in thoracolumbar trauma.**	**Panagiotis Liantis,** *UK*
17:30 - 17:40	**Case discussion of thoraco lumbar spine trauam.**	**Seamus Morris,** *Ireland*
17:40 - 17:50	**Case discussion of degenerative thoraco-lumbar spine.**	**Paul Heini,** *Switzerland*
17:50 - 18:00	**Questions & Answers**	

3rd INTERNATIONAL TRAUMA CONGRESS

3rd INTERNATIONAL TRAUMA CONGRESS

3 DAY

Friday

15th February, 2019

3 DAY Friday

Session 9 Pediatric Injuries

Moderators: T. Slongo, M. Odat

08:30 - 08:40	**Osteogensis Imperfecta fractures management, any update?**	**Mahmoud M. Odat,** *Jordan*
08:40 - 08:50	**ACL INJURIES in pediatrics.**	**Sattar Al Shryda,** *UAE*
08:50 - 09:00	**Removal of metal in pediatrics, timing and precautions.**	**Mahmoud M. Odat,** *Jordan*
09:00 - 09:10	**Elastic Nails, tips and tricks.**	**Sattar Al Shryda,** *UAE*
09:10 - 09:20	**33 years of experience in ESIN, what we have learned and why we see complication?**	**Theddy Slongo,** *Switzerland*
09:20 - 09:30	**Pelvis fractures in children, when to fix?**	**Sattar Al Shryda,** *UAE*
09:30 - 09:40	**How to manage complex and irreducible supracondylar humeral fra cture in childhood?**	**Theddy Slongo,** *Switzerland*
09:40 - 09:50	**Questions & Answers**	
09:50 - 10:15	**Lilly symposium** Comprehensive management of Fragility Fractures	
10:15 - 10:30	**Coffee Break**	

Session 10 Ankle and Foot Trauma

Moderators: M. Wille, N. Tartaglia

10:30 - 10:40	**Tibial Pilon Fracture: ORIF versus external fixation**	**Nicola Tartaglia,** *Italy*
10:40 - 10:50	**MIS in Distal Tibia Fracture.**	**Hayder Al-Saadi,** *UAE*
10:50 - 11:00	**MIS technique in calcaneum fixation.**	**Markus Wille,** *Austria*
11:00 - 11:10	**Fibular rod as salvage implant in geriatric patients with ankle fractures and poor soft tissue conditions.**	**Michiel Segers,** *Netherlands*
11:10 - 11:20	**Total Ankle Replacement, indications and results.**	**Nicola Tartaglia,** *Italy*
11:20 - 11:30	**Fixation of the posterior tubercle in trimalleolair ankle fract ures through a posterolateral approach; plate versus screw.**	**Michiel Segers,** *Netherlandst*
11:30 - 11:40	**Ankle Syndesmosis injuries, technique of fixation.**	**Michael Hoffman,** *Germany*

3 DAY Friday

Session 10 Ankle and Foot Trauma

Moderators: M. Wille, N. Tartaglia

11:40 - 11:50	Ankle Posterior Approach, indications and technique.	**Said Saghieh,** *Lebanon*
11:50 - 12:00	Ankle Tri-malleolar fractures, surgical hints.	**Markus Wille,** *Austria*
12:00 - 12:10	Case discussion	**Markus Wille,** *Austria*
12:10 - 12:25	Panel Discussion	**Michiel Segers,** *Netherlands*
12:25 - 14:00	Lunch and Prayer Break	

Session 11 Polytrauma and soft tissue management

Moderators: B. Friemert, R. Krassnig

14:00 - 14:10	Damage Control orthopedics.	**Fadi Nassereddine,** *Lebanon*
14:10 - 14:20	Management of bone and soft tissue deffict.	**Gamal Hosny,** *Egypt*
14:20 - 14:30	Limb salvage versus amputation: Do scores help?	**Said Saghieh,** *Lebanon*
14:30 - 14:40	How to deal with large tibial bone defects,masqulet vs illzarove.	**Ahmed Sabeeh,** *Iraq*
14:40 - 14:50	Poly trauma patient-role of external fiaxation.	**Gamal Hosny,** *Egypt*
14:50 - 15:00	Multiple long bone fractures, treatment algorithm.	**Benedikt Friemert,** *Germany*
15:00 - 15:10	Interactive case discussion.	**Renate Krassnig,** *Austria*
15:10 - 15:20	RIA in femoral and tibial ostesynthesys failures.	**Nicola Tartaglia,** *Italy*
15:20 - 15:30	Management of soft tissue reconstruction in infected non-union.	**Sami Roukuz,** *Lebanon*
15:30 - 15:40	Questions & Answers	

Free Paper Session

Moderators: H.Al-Saadi, S.Alshryda

INTERNATIONAL SPEAKERS

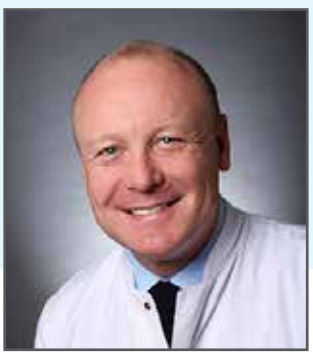
International Speakers

alphabetically arranged

Benedikt Friemert

Head Of The Department For Orthopaedic And Trauma Surgery, Reconstructive And Septic Surgery, Sportstraumatology At The German Armed Forces Hospital Ulm.

Specialities:
– General Surgeon – Orthopaedic and Trauma Surgeon
Professional Affiliations (in parts):
Active Member of the German Trauma Society (DGU) and German Society of Orthopaedics and Trauma Surgery (DGOU):
– Head of Deployment-, Disaster- and Tactical-Surgery Working Group DGU
– Member of Continuing Medical Education Board DGU
Member of Scientific Advisory Board of the German Medical Association (Emergency- and Disaster-Medicine)
Presidium Member of the German Trauma Foundation
Scientific Interests:
– Trauma Care – Deployment, Disaster- and Tactical-Surgery
– Neurophysiology of the Musculoskeletal System
– Ultrasound in Orthopaedic and Trauma Surgery



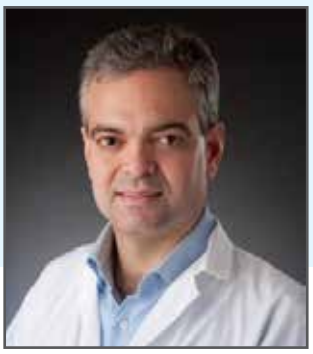
Gerhard Achatz

Executive Senior Physician And Senior Consultant Of The Department For Orthopaedic And Trauma Surgery, Reconstructive And Septic Surgery, Sportstraumatology At The German Armed Forces Hospital Ulm.

Specialities:
– General Surgeon
– Orthopaedic and Trauma Surgeon
Professional Affiliations (in parts):
Active Member of the German Trauma Society (DGU) and German Society of Orthopaedics and Trauma Surgery (DGOU):
– Head of the Advocacy Group of Mid-Level – Physicians DGOU
– Head of Ultrasound Working Group DGU
– Secretary of Deployment-, Disaster- and Tactical-Surgery Working Group DGU
Scientific Interests:
– Trauma Care
– Deployment, Disaster- and Tactical-Surgery
– Shoulder and Elbow Surgery
– Ultrasound in Orthopaedic and Trauma Surgery

International Speakers

alphabetically arranged



John Antoniou

Professor Of Surgery,
McGill University Orthopaedic Surgeon,
Chercheur National FRSQ President Of
Canadian Orthopaedic Association

Dr. John Antoniou is an orthopaedic surgeon at the Jewish General Hospital (Montreal) and the Research Director of the Orthopaedic Research Laboratory at the Lady Davis Institute. He is a full tenured Professor of Surgery and Research Director of the McGill University's Division of Orthopaedic Surgery.
Dr. Antoniou was invited to present his work in over 200 international conferences, workshops symposiums and courses, and over 500 abstracts were presented at national and international meetings. He published and co-authored over 170 original articles in peer-reviewed journals.
Dr. Antoniou has recently served as the president of the Canadian Orthopaedic Research Society. He is the co-chair of the ORS's International Combined Orthopaedic Research Society committee since 2013 and in June 2018 he began serving as the COA's President for the year 2018-2019. He is a scientific reviewer for journals, conferences, grant task forces and serves on several editorial boards along with being recipient of several prestigious awards.

Maarten Van Der List

Shoulder Surgeon, Medical Director Hospital
Bergmanclinics Naarden,
Netherlands.

After studying medicine and specializing as a surgeon, Maarten van der List worked for several years in a peripheral hospital as an orthopedic surgeon. He's fully specialized in the shoulder since 15 years.
From 2008 he moved to a private hospital and is also Medical Director of the Bergman clinic in Naarden and Rijswijk (two hospitals 6-8 OR's).
Van der List followed in 2012/2013 the "Managing Healthcare Delivery" course from Michael Porter at the Harvard Business Boston school, also applied these insights in his clinic and fully adapted to current insight for optimal patient care: effective & efficient.
Van der List is one of the founders of the Shoulder Community, a platform for research, practice and education. He is much in demand as a speaker at national and international congresses, including the knee and shoulder conventions of the European Society of Knee Surgery and Arthroscopy (ESSKA) (one of the founders ESA) traumatology.
He is now very interested in "shoulder dynamica and compensation mechanisms" and from the scapula view.

International Speakers

alphabetically arranged

Marinis Pirpiris

Consultant In Orthopaedic Surgery Monash Medical Centre,
Australia

Marinis is the Director of State Chairs of the AOA and an AOA Federal Board Director. He is the immediate past Chair of the Victorian Branch of the AOA. He has been on a number of AOA committees, including the Code of Conduct Working Group, the CPD committee, and the AOA mentorship program.

He is the current President of the Australian Orthopaedic Trauma Society and the incoming chair of the Asia Pacific Orthopaedic Trauma Society and AOTrauma Asia Pacific Regional Community Development Officer. He is the immediate past Chair of the AO Trauma Australian Council.

He works at the Royal Melbourne, Epworth and Cabrini Hospitals in Melbourne. He is a busy orthopaedic trauma and elective surgeon and is the past chair of the Cabrini Orthopaedic Department Craft Group. He is committed to philanthropy and education, and travels through the Asia Pacific region teaching for the AO Trauma group, AO Alliance and the Asia Pacific Orthopaedic Association.

He is interested in leadership, governance and innovation and sits on a number of community and school boards. He is the treasurer of the Greek Community of Melbourne and Chair of the Board of Directors of Alphington Grammar School. He is also the President of the Hellenic Medical Society of Australia.

Markus Wille

Deputy Head Of The Trauma Department Of „Wilheminenspital Wien“
Senior Consultant Orthopaedic Surgery,
Austria

Study in Innsbruck and Barcelona.

Training in Innsbruck/Bregenz/Reutte – Austria.

Chief of the foot and ankle Team at the „Wilheminenspital Vienna“.

Deputy Head of the Trauma Department of the Wilheminenspital.

International Speakers

alphabetically arranged

Michael Hoffmann

Assist. Prof. Dr. Michael Hoffmann, MBA Head Of Department In The Clinic For Orthopaedic & Trauma Surgery At Schön Clinic Neustadt, Germany Specialist For Orthopaedic And Trauma Surgery.

After studying medicine and specializing as a surgeon, Maarten van der List worked for several years in a peripheral hospital as an orthopedic surgeon. He's fully specialized in the shoulder since 15 years.
From 2008 he moved to a private hospital and is also Medical Director of the Bergman clinic in Naarden and Rijswijk (two hospitals 6-8 OR's).
Van der List followed in 2012/2013 the "Managing Healthcare Delivery" course from Michael Porter at the Harvard Business Boston school, also applied these insights in his clinic and fully adapted to current insight for optimal patient care: effective & efficient.
Van der List is one of the founders of the Shoulder Community, a platform for research, practice and education. Philip Roberts

Consultant Orthopaedic Surgeon,
UK

Current Responsibilities

Clinical lead of NoF unit at UHNM, currently manages >920 per year. Annual elective work; 350 primary and 30 revision THRs. He has cared for over 11,000 NoF and 5,000 THR patients.

Main Work Interests

Philip's work is focused on the hip both elective and trauma. Understanding bearings, component alignment and soft tissue balancing and infection prevention Philip lectures and operates with colleagues in Europe, Middle and Far East. Philip completed his first degree in Infection 1989 and qualified from St. Mary's, London 1992 with the McCowan Scholarship. Orthopaedics at Oxford and registrar on Stoke/Oswestry rotation, a fellowship in Cardiff.
RCS Lamming-Evans Fellow, 1996. Walter Mercer Gold Medal, 2002. Consultant Surgeon 2003. NHSI Clinical Lead NoF and Vice-lead arthroplasty 2008-10. Chairs "3-level hip arthroplasty Course" UK 2014-current. Chairs "Hip Approaches Course" Istanbul 2012-current. Chairs "Uncemented Hip Course" Italy 2015-current. European Patient Safety Advisory Board 2012-current. He provides an International Visiting Surgeon Programme.
Publishes regularly.

Renate Krassnig

Consultant In Trauma Surgery, Medical University Graz
Department Of Orthopaedic And Trauma,
Austria

Renate Krassnig hast certifications from the Austrian Board of Trauma Surgery, Orthopedic Surgery and the Austrian Emergency Medicine Board. Her research interests include the treatment of infection as well as the treatment of severely injured patients. In addition to clinical and scientific work Renate Krassnig is very ambitious in teaching students at the Medical University Graz. One of her favorite activities is to take part and teach at AO Trauma courses.

Seamus Morris

Consultant Orthopaedic Surgeon Mater Misericordiae University Hospital Assistant Clinical Professor, University College Dublin Clinical Secretary, Irish Institute Of Trauma & Orthopaedic Surgery

Mr Morris is a Consultant Orthopaedic Surgeon specializing in axial skeletal injuries, including spine and pelvic trauma. He served as joint clinical lead in the Irish National Pelvic and Acetabular Trauma Centre from 2007 – 2013. More recently he has held the role of Clinical Lead in the National Spinal Injuries Unit and Chairman of the Department of Orthopaedic Surgery in the Mater Misericordie University Hospital, Dublin, Ireland.

He has lectured on numerous trauma courses and chaired the AO Principles Course in Dublin. He is Assistant Clinical Professor University College Dublin and secretary of the Irish Institute of Trauma and Orthopaedic Surgery. He has co-authored numerous peer reviewed articles and aisnvolved in medical device innovation authoring a number of patents.

Theddy Slongo

Senior Consultant For Paediatric Trauma And Orthopaedics,
University Children's Hospital Dept. Of Paediatric Surgery,
Bern, Switzerland

Dr. Theddy Slongo began his career 44 years ago as a specialist in pediatric surgery. He then specialized in Pediatric Traumatology and Pediatric Orthopedics as well as Vascular Surgery. He then worked for many years as Senior Surgeon at the Children's Clinic in Bern before becoming also Head of Pediatric Surgery and Child Traumatology. He is a member of most Traumatological Societies and Corresponding Member in ten different countries. However, the AO and the development of child-specific implants (LCP Pediatric Hip Plate / Elastic Nailing System / End-Caps for ESIN) and operating methods in traumatology are particularly of his main interest. For all this developments, he got the AO-Innovation price. He is also a member and founder of AO's Pediatric Expert Group and Chairman of the External Fixator expert group of AO.
Over the last years his special interest is the training of young doctors in courses, lab and theater.

The science of better health

Company overview

MEDPHARMA was established in 1998.

Being the 2nd founded Emirati and 7th founded GCC based pharmaceutical manufacturer; MEDPHARMA assumed a key role in this blossoming health care revolution by providing outstanding quality medicines that are clearly superior.

In October 2014; **MEDPHARMA** became a member of VALEANT. Bausch Health Companies Inc. (formerly Valeant Pharmaceuticals) is a multinational specialty pharmaceutical company based in Laval, Canada.

MEDPHARMA core & scope of business:

Formulating, manufacturing, registration and marketing of **MEDPHARMA**' branded generics.

Formulating, manufacturing, batch release and/or final packaging of pharmaceutical products for pharmaceutical manufactures from Europe, North America and Asia.

MEDPHARMA has a wide range of leading pharmaceuticals products in UAE market including Non-Steroidal Anti-inflammatory (LOFLAM, ETORIX, Dicloflam & Diclon) & Anti-infectives (Cepfproz, Z-Mycin, Zakon & Zenon). Plus, other products in different therapeutic categories that are available in UAE & the Middle East Region.

CELEBREX®
(CELECOXIB CAPSULES)
200 mg capsule

TARGETING ACUTE PAIN WITH CELEBREX®[1]

The CELEBREX® experience

Acute pain
- Pain relief as early as 22 minutes (median onset is about 30 minutes)[2*]
- Pain relief sustained up to 24 hours[2]
- All the significant improvements were detected in studies vs placebo[3-6]

Low-dose aspirin
- Does not interfere with the antiplatelet function of low-dose aspirin[8†]

Surgery
- Does not affect platelet aggregation or bleeding time[7]
- Reduces need for opioids post surgery[3]

GI tolerability
- Favorable GI profile compared with an ns-NSAID alone or an ns-NSAID + PPI combination[9,10]

GI: gastrointestinal
PPI: proton-pump inhibitor
ns-NSAID: Nonselective nonsteroidal anti-inflammatory drug
*In patients with moderate-to-severe pain following third molar extraction.
†The use of celecoxib concomitantly with aspirin increases the risk of GI toxicity compared to the use of celecoxib alone.

Flexible dosing in acute pain management:
the dosage is 400 mg initially, followed by an additional 200 mg dose if needed on the first day. On subsequent days, the recommended dose is 200 mg twice daily as needed.[1]

CELEBREX® Abbreviated Prescribing Information:
PRESENTATION: CELEBREX® (celecoxib) capsules: 100 mg, and 200 mg. **INDICATIONS:** CELEBREX® is indicated for Osteoarthritis (OA), Rheumatoid Arthritis (RA), Juvenile Rheumatoid Arthritis (JRA) in patients 2 years and older, Ankylosing Spondylitis (AS), Acute Pain (AP), Primary Dysmenorrhea (PD). **DOSAGE AND ADMINISTRATION:** Use the lowest effective dosage for shortest duration consistent with individual patient treatment goals. OA: 200 mg once daily or 100 mg twice daily. RA: 100 to 200 mg twice daily. JRA: 50 mg twice daily in patients 10-25 kg, 100 mg twice daily in patients more than 25 kg. AS: 200 mg once daily single dose or 100 mg twice daily. If no effect is observed after 6 weeks, a trial of 400 mg (single or divided doses) may be of benefit. AP and PD: 400 mg initially, followed by 200 mg dose if needed on first day. On subsequent days, 200 mg twice daily as needed. Reduce daily dose by 50% in patients with moderate hepatic impairment (Child-Pugh Class B). Consider a dose reduction by 50% (or alternative management for JRA) in patients who are known or suspected to be CYP2C9 poor metabolizers. **CONTRAINDICATIONS:** Known hypersensitivity to celecoxib, or any components of the drug product or sulfonamides. History of asthma, urticaria, or other allergic-type reactions after taking aspirin or other nonsteroidal anti-inflammatory drugs (NSAIDs). In the setting of coronary artery bypass graft (CABG) surgery. **WARNINGS AND PRECAUTIONS:** Risk of serious cardiovascular & gastrointestinal events. (NSAIDs) cause an increased risk of serious cardiovascular thrombotic events, including myocardial infarction and stroke, which can be fatal. This risk may occur early in the treatment and may increase with duration of use. (NSAIDs) cause an increased risk of serious gastrointestinal (GI) adverse events including bleeding, ulceration, and perforation of the stomach or intestines, which can be fatal. Elderly patients and patients with a prior history of peptic ulcer disease and/or GI bleeding are at greater risk for serious GI events. Hepatotoxicity: Inform patients of warning signs and symptoms of hepatotoxicity. Discontinue if abnormal liver tests persist or worsen or if clinical signs and symptoms of liver disease develop. Hypertension: Patients taking some antihypertensive medications may have impaired response to these therapies when taking (NSAIDs). Monitor blood pressure. Heart Failure and Edema: Avoid use of CELEBREX® in patients with severe heart failure unless benefits are expected to outweigh risk of worsening heart failure. Renal Toxicity: Monitor renal function in patients with renal or hepatic impairment, heart failure, dehydration, or hypovolemia. Avoid use of CELEBREX® in patients with advanced renal disease unless benefits are expected to outweigh risk of worsening renal function. Anaphylactic Reactions: Seek emergency help if an anaphylactic reaction occurs. Exacerbation of Asthma Related to Aspirin Sensitivity: CELEBREX® is contraindicated in patients with aspirin-sensitive asthma. Monitor patients with preexisting asthma (without aspirin sensitivity). Serious Skin Reactions: Discontinue CELEBREX® at first appearance of skin rash or other signs of hypersensitivity. Serious skin reactions have occurred following treatment with CELEBREX®, including erythema multiforme, exfoliative dermatitis, Stevens-Johnson Syndrome (SJS), toxic epidermal necrolysis (TEN), drug reaction with eosinophilia and systemic symptoms (DRESS), and acute generalized exanthematous pustulosis (AGEP). These serious events may occur without warning and can be fatal. Premature Closure of Fetal Ductus Arteriosus: Avoid use in pregnant women starting at 30 weeks of gestation. Hematologic Toxicity: Monitor hemoglobin or hematocrit in patients with any signs or symptoms of anemia. Disseminated Intravascular Coagulation (DIC): risk of disseminated intravascular coagulation with use of CELEBREX® in pediatric patients with systemic onset JRA, monitor patients for signs and symptoms of abnormal clotting or bleeding. **USE IN SPECIFIC POPULATIONS:** Pregnancy: Avoid use of (NSAIDs) in pregnant women starting at 30 weeks of gestation. Infertility: (NSAIDs) are associated with reversible infertility. Consider withdrawal of CELEBREX® in women who have difficulties conceiving. **INTERACTIONS:** Drugs that Interfere with Hemostasis (e.g. warfarin, aspirin, SSRIs/SNRIs): concomitant use of CELEBREX® and analgesic doses of aspirin is not generally recommended. ACE Inhibitors, Angiotensin Receptor Blockers (ARB), or Beta-Blockers: Monitor blood pressure. In elderly, volume depleted, or those with renal impairment, monitor for signs of worsening renal function. Diuretics: Monitor patients to assure diuretic efficacy including antihypertensive effects. Digoxin: Monitor serum digoxin levels. **OVERDOSING:** Symptoms following acute (NSAID) over-dosages have been typically limited to lethargy, drowsiness, nausea, vomiting, and epigastric pain, which have been generally reversible with supportive care. Gastrointestinal bleeding has occurred. Hypertension, acute renal failure, respiratory depression, and coma have occurred, but were rare. No overdoses of CELEBREX® were reported during clinical trials. No information is available regarding the removal of celecoxib by hemodialysis. Manage patients with symptomatic and supportive care following an (NSAID) over-dosage. There are no specific antidotes. Consider emesis and/or activated charcoal (60 to 100 grams in adults, 1 to 2 grams per kg of body weight in pediatric patients) and/or osmotic cathartic in symptomatic patients seen within four hours of ingestion or in patients with a large over-dosage (5 to 10 times the recommended dosage). **ADVERSE EVENTS:** Most common adverse reactions in arthritis trials (>2% and >placebo): abdominal pain, diarrhea, dyspepsia, flatulence, peripheral edema, accidental injury, dizziness, pharyngitis, rhinitis, sinusitis, upper respiratory tract infection, and rash. **DRUG REFERENCE:** USPI date of revision of text May 2016 **(For United Arab Emirates, Kuwait, Bahrain, Qatar & Oman Markets)**. Date of This Document: 31-Oct-2018
Full prescribing information is available upon request.
